BOOTH SD1–SD23 STANDARD BOOTH

Booth	Size	Total/m^2	Move-in From	Time	Move-in To	Time	Move-out Period	Time
SD1-23	3x3	9 m^2	20 March 2027	08.00 hrs.	21 March 2027	18.00 hrs.	4-5 April 2027	08.00-12.00 hrs.

Construction schedule of each area

Construction schedule is varied based on individual construction area. Exhibitors and Service Providers must check the specified construction schedule and strictly comply with it. If work beyond the spcified working hours is required, Exhibitors and service Providers must comply with Working beyond the specified time will require the special badge (Orange Badge), which can be requested through the submission of Form 9. The orange badge must be requested in accordance with the actual number and name list of the workers only. Over amount request is strictly prohibited, **especially on March 21, 2027 at 18.00 hours** which is the last construction day. Such request can be submitted **from March 20 to March 21, 2027 at 16.00 hours. at room C15,** located backside of Challenger 3.

All official service providers must inform your customers (exhibitors) and related persons to request this special badge, which will be arranged with transparent plastic holder and neck strap. The badge must be presented at all times while inside the hall.

In any case, if the rganizer finds anyone not holding the badge, such person will be asked to leave the hall. The Exhibitors and the Service Providers are required to study the construction schedule of each construction area, which the construction date is varied based on individual area, please refer to the area codes accordingly. The construction work can be executed following the date determined in the construction schedule, of which can be started from 8.00 hours of March 17, 2027 onward **(through a 24-hour basis) until the 12.00 hours of March 21, 2027,** which is its end of the timeline for a type of works in order to hand over the booths to the Organizer for inspection.

The Official Service Providers must remove all leftover materials from the gangway. The Organizer will conduct inspection on March 21, 2027, at 12.00 hours. Thereafter, the Organizer will turn on a full system of air-conditioning and electricity. The performances are allowed to be practiced from 12.00 hours until 17.45 hours, which is its end of the practice time and the operation in all areas. Everyone is kindly asked to leave the hall from 17.45 to 18.00 hours.

From 18.00 to 19.00 hours, the Organizer will inspect all construction, decoration and public utility works within the booths, and also test the central public utility system to be prepared for the event for 1 hour. From 19.00 to 24.00 hours, the Organizer will start carpeting the entire gangway and decorating all common areas.

In case of any additional work, Exhibitors and Service Providers are allowed to re-enter from 19.00 to 24.00 hours by submitting the Request Form 9 for entry permission. All details, regarding the purpose of re-entry, the length of working time, the public utility system and its position required to use, and the actual number of workers, must be specified. It is not permitted to reserve the entry ticket more than the actual number of workers. The Organizer will issue the overtime working badge (orange badge) and inspect the number of workers in each booth. The incurred expenses comprise a fee based on work duration and public utility consumed

From 19.00 to 24.00 hours of March 21, 2027, for security control after all works of the day are completed, only a person with an overtime working badge (orange badge) is allowed to enter. The Organizer will inspect the operation at all times, and the workers shall perform within their booths only.

Remark: The orange badge must be covered with a transparent plastic holder in either neck hanging type or chest type, which is required to provide on their own. The size can be asked from the Organizer. The badge must be presented at all times while inside the hall. In any case, if the Organizer finds anyone not holding the badge, such person will be asked to leave the hall. Badges are valid for one day only and must be exchaned on a basis. In the event of loss or damagrd, apenalty of 500 Baht per badge will be charged.

Meaning and scope of work

The meaning of specific words, the representative terms, and a brief scope and function of involved parties are listed below:

Grand Prix International Public Company Limited	hereinafter referred to as **"Organizer"**
IMPACT Exhibition Management Co., Ltd.	hereinafter referred to as **"IMPACT"**
Client Company, which purchases exhibition space	hereinafter referred to as **"Exhibitor"**
Officially appointed service company	hereinafter referred to as **"Service Provider"**

"Organizer"

refers to the provider of public utility and exhibition space allocated for Exhibitor, and is entitled to supervise and grant approval to the drawing, construction, presentation, light, sound and visual show as to comply with the regulations prescribed in this Exhibitor's Manual for the equality and justice of every Exhibitor.

"IMPACT"

refers to the owner of the exhibition venue who provide the entire exhibition space including public utility, power supply, telephone, internet, parking space, food & drink as well as public transportation to facilitate the show.

"Exhibitor"

refers to the company, partnership and / or store who rent out a space from the Organizer.

"Official Service Provider"

refers to the Service Providers who are entitled by the Organizer to provide various categories of work such as booth decoration, construction drawing, presentation & show, light sound & visual system as well as freight forwarder. The Official Service Providers must conduct their work to the extent as officially assigned only.

"Sub-Service Provider"

refers to those Service Providers whose name are not listed in this manual. In case the Sub-Service Provider's drawing is chosen by the Exhibitor, such Sub-Service Provider must contact the Official Service Provider of a related category to request for a permission to work on behalf of such Official Service Provider.

The Official Service Provider who entitles a Sub-Service Provider to conduct the work on behalf of its name, is bound to coordinate with the Organizer on every aspect and is responsible for every act that against the construction rules as well as any incomplete work or so not comply with the procedure prescribed by the organizer. **In case a Sub-Service Provider acts against rules and regulations, its Official Service Provider will be imposed with a fine penalty and point deduction as well as other responsibility as if the violation was executed by themselves.**

Definition

The design review process is divided into the following two categories:

1.Construction Work Inspection

The Organizer gives priority to the work inspection in order to ensure that all works are being conducted under the same basis within the designated areas; to ensure and reserve the equal right of all parties that the construction shall not obscure one another; and to facilitate every aspect of public utility work.

The construction work of each booth must comply with the construction drawing and rules determined by the Organizer including the height **(as prescribed in No. 22).** The construction area shall be approximately two-thirds of the total booth area. Therefore, the construction drawing will be inspected for the correctness that complies with the construction rules set forth by the Organizer and only the drawing which complies with construction rules and specified dimension will be approved. However, for the booth strength and bearing capacity, a certification issued by an authorized architect and / or engineer must be attached with the drawing and the design calculation sheet of both single and double story structure and other related construction to the organizer.

If unpleasant situations occur to the booth structure such as booth's damage, fall down or collapse, the Organizer will take it as guilt of the Official Service Provider and the engineer who approved the drawing respectively depending on how severe the case may be

2. Lighting, Sound, and Visual System Design Inspection

The Organizer shall inspect the truss structure drawings based on the weight calculation documents, including the weight of the lighting, sound, and visual equipment, as well as the weight of decorative elements suspended from the truss structure. The Organizer shall also inspect the electric hoist suspension points based on the ceiling layout plan provided by IMPACT's engineer. Service Providers must combine the booth's electric hoist installation points into the suspension point layout specified in IMPACT's

plan and submit the combined drawing to the Organizer for inspection and approval by IMPACT's engineer. Suspending truss structures or decorative elements from the catwalk or safety railings is strictly prohibited. Suspension is only permitted at approved suspension points. The Organizer prioritizes safety and places particular importance on the use of LED screens. Service Providers must check the harmonic levels before entering the construction site and ensure that they do not exceed the specified limits. To prevent electrical short circuits and power outages, the submission of drawings must be properly inspected and controlled. Late submission of drawings will result in a deduction of 1 point or a monetary penalty starting from 50,000 Baht, depending on the number of outstanding submission items.

The objectives of Exhibitor's manual

1. To standardize exhibition operations and build common understanding in rules & regulations and to execute the work in the same direction among the Organizer, Exhibitors and Official Service Providers.
2. To preserve the right equally for every Exhibitor by mean of regulation stated in this Exhibitor's manual.
3. To be used as a basis for various operations and work procedures between the Organizer and Eexhibitors. and Official Service Providers including the IMPACT event venue.
4. To make you aware of the rules and penalties in cases where Official Service Providers violate construction regulations, the Organizer will take steps starting from verbal warning, remind with documents and deduct points, which will affect the evaluation and selection of Official Service Providers for the next event.

The Exhibitors and all categories of Service Providers are required to study this construction manual comprehensively and strictly follow all the required rule & regulation, especially the general construction rules and regulations section, which incorporates the strict requirements of IMPACT and the construction work imperatives of the Organizer. Detailed study of this manual shall be benefit for Exhibitors and all categories of the Official Service Providers.

The Organizer's role is that of a landlord. It may allow or disallow Official Service Providers and Sub-Service Providers to work in the building at its own discretion.

The construction rules and regulations shall apply to all areas and operations of all categories of Official Service Providers, who must observe these rules and regulations as a basis for their work. Appointed Service Providers shall not work in those categories or cross-functional work in which they have not been appointed. Service Providers and Exhibitors should study the rules and regulations in order to align their understanding of work functions and to seek convenience from the Organizer.

The areas within Challenger Hall 1-3 are restricted whereby the Exhibitor is required to use the services in each category from the Official Service Providers appointed by the Organizer. Employing Sub-Service Providers not formally appointed to perform construction work or other types of service such as acting, freight forwarding, installing light and sound systems, or cleaning in these areas is strictly prohibited.

An officially recognized Service Provider is the Service Provider selected and evaluated by the Organizer, assessed against the requirements of ISO 9001:2001 quality system standard.

Service Providers are classified into following categories:

1. Construction Service Provider
2. Presentation Service Provider
3. Freight Forwarder Service Provider
4. Light, Sound & Visual Service Provider
5. Booth Cleaning Service Provider
6. Car & Motorcycle Cleaning Service Provider

1. Construction rules and regulations

The Organizer has incorporated rules and regulations issued by the Organizer and IMPACT into this manual. Moreover, the Organizer also holds the annual meeting for the Official Service Providers to find out the strong points and what needed to be improved. As a consensus of the meeting agreement, rules and regulations shall be changed and / or modified accordingly to meet the international standard. The Organizer has referred to the operation principle of the global events and use them as the root for Rules and Regulations of Bangkok International Motor Show.

1.1 Safety shall be given first priority among all considerations: If an accident arises out of faulty work performance within a space, and the construction thereupon causes damage to the own booth and / or the other booths including personal injury to a third party, the Service Provider occupying that space shall be fully liable for the damage incurred without any dispute, and 1 point shall be promptly deducted every time such event occurs.

1.2 The strength and stability of construction: The decorative parts and construction materials must be strong and stable. If the

Organizer detects that either the construction or the decorative part is likely to fall down or drop down or collapse, the Organizer shall ask for permission to discontinue and inspect the work in order to make correction till completion before re-opening such space for use, both during the construction period and during the exhibition period.

1.3 Construction and decoration: Construction shall be based entirely on the drawings approved by the Organizer. Performing construction work other than prescribed in the drawings is not allowed, and in case the Organizer discovers such conduct, it shall require that the Service Provider involved make corrections or changes so as to comply with the approved drawing details and consequently deduct 1 point.

1.4 The Organizer shall monitor the work performance of all categories of Official Service Providers based on the work schedules that the Service Providers have submitted: In case there is no work progress, and upon verification of the work performance against the drawings it could be judged that the construction work cannot be completed on time, the Organizer shall assume full control of the construction work of the respective booth and let the Official Service Provider(s) of the respective category assist in the construction work in order to meet the target completion date whereby the Official Service Provider which could not deliver punctual output must be evaluated according to the Organizer's regulations and shall be suspended either temporarily or permanently at the discretion of the Organizing Committee based on the volume of work.

1.5 Work performance inspection: Details are divided into 3 steps as follows:

Step 1 The Official Service Provider must submit the construction drawings, electrical drawings, light and sound system drawings, exhibit and show drawings, and drawings of show and pretty clothing to the Organizer for approval before proceeding; and public utility request forms shall be filed within the specified date. The construction drawings shall include:

1.1 Two sets of true color perspective pictures accompanied with their 3D file;
1.2 Front-view, top-view and side-view cross-section diagrams;
1.3 Booth floor plan, electrical schematic diagram, light sound and visual system diagram;
1.4 Clear and comprehensive width, length and height information;
1.5 Location of fire extinguisher and electrical control point must be specified in the floor plan and diagrams;
1.6 Construction of double storey booth, electric post and tower requires engineer's approval;
1.7 Two sets of construction, light, sound and visual as well as presentation drawings and a copy in a USB flash drive,shall be submitted to the Organizer whereby the Organizer shall stamp the drawings as the proof of approval;
1.8 Steps of work performance table, which can be obtained from the Organizer, shall accompany the construction drawings; and
1.9 Narration on how the booth design concept aligns with the product and objectives of the Organizer. In case submission of the aforementioned drawings and documents by the Official Service Providers and Sub-Service Providers is delayed or incomplete, a penalty of 1 point per booth or a fine of 50,000-150,000 Baht shall be imposed.

Various types of delivery, the organizer has designated Service Providers. There are 4 types of duties that must be taken for inspection:

1. Construction decoration
2. Light sound system
3. Presentation and show format
4. Pretty Clothing

Those aforementioned drawings must be submitted within February 12, 2027 for the Organizer to examine and approve before proceeding with the construction. Approval shall be regarded as complete when drawings are signed and stamped by the Organizer. **Submission via facsimile or e-mail shall not be accepted.** Drawings must be submitted by hand at the following address, together with accompanying person to explain the details thereof.

Grand Prix International Public Company Limited

Building 2, 2nd Floor, 4/299, Soi Ladplakhao 66, Ladplakhao Rd., Anusawaree, Bangkhen, Bangkok 10220

Submission of all drawings must be attached accordingly with particular public utility request form **within the date determined in such request form.**

Step 2 Construction and dismantling inspection

1. Construction time control and monitoring shall be based on the work schedule submitted to the Organizer.
2. The Organizer shall verify whether the construction work has been performed based on approved drawings.
3. Personnel's work performance assessment shall be made against construction rules and regulations.

4. Post-dismantling inspection shall be conducted to find any damage to the exhibition space.

Step 3 Inspection during exhibition period

The Organizer shall inspect for any damage to booth construction and decorative parts during exhibition period. If worn or damaged parts are found to be hazardous, the Organizer shall inform the person in charge of the booth to restore them to normal operating conditions before putting back into use. Official Service Providers shall comply strictly with the procedures set forth by the Organizer. If the Official Service Provider's work progress in various steps is delayed or noncompliant, a point deduction shall be imposed and the Official Service Provider's performance shall be evaluated accordingly.

2. Prohibitions

2.1 Booth construction and decoration work beyond the determined area is strictly prohibited; construction and decoration works can be performed within the border lines of the designated area only. No parts shall protrude beyond the designated area both across the horizontal dividing lines and across the imaginary vertical dividing lines.

2.2 Drilling, hammering, dragging with any kind of material is strictly forbidden if driven into the original building structure, such as floor and wall for any purpose. In case the Organizer discovers such conduct, it shall require that the Official Service Provider will be fined for the loss and / or damage fee, and 1 point deduction will be imposed.

2.3 Use of electric power through the outlets around the Challenger Hall is strictly prohibited. Failure to observe this requirement shall lead to the imposition of 5,000 Baht fine per outlet and 1 point deduction.

2.4 Walkway, fire escape route, common area shall be free of obstruction and construction materials at all times. If the Organizer finds the belongings left or placed thereupon, it shall have a Freight Forwarder Service Provider remove those articles at an instant.

2.5 Food and drink are strictly prohibited in the Challenger Hall buildings and goods loading / unloading areas, except in the provided areas.

2.6 Drinking alcoholic beverage is strictly forbidden in the buildings and construction areas. Failure of the Official Service Provider to adhere to this requirement shall result in work suspension and subsequently 2 points deduction at an instant.

2.7 Use of the building's ceiling to fasten with any booth structure or for any other purpose except where the ceiling is used for hanging truss structures for installing the visual, light & sound system, and for shows and performances intention **is strictly prohibited.**

2.8 Do not use any controlled substance or have any kind of illegal substance in possession. Violators shall be prosecuted under the laws of the Kingdom of Thailand.

2.9 Smoking is not permitted; it is strictly forbidden in the exhibition hall, but is allowed in the provided area.

2.10 Personnel and security guards are strictly prohibited from staying overnight in the booth except as allowed with the written permission issued by the Organizer.

2.11 Use of rubber adhesive in the building during 8.00–24.00 hrs. is strictly forbidden for the fact that the odor and chemicals will disturb others and may cause harm to those in the vicinity. However, the use of rubber adhesive is allowed from 24.00 hrs. to 06.00 hrs. on **March 17–21, 2027** only. The use of rubber adhesive outside the prescribed hours is strictly forbidden.

2.12 Use of table mounted electric circular saw in the building is strictly forbidden while small electric handsaw equipped with safety guard is allowed.

2.13 Publicity outside the assigned booth area is strictly prohibited. Sales and distribution of articles, especially through the use of a mascot for all types of publicity shall not be allowed.

2.14 Use of balloon inflated with any kind of gas which allow the balloon to float **is strictly forbidden.**

2.15 Sales and distribution of all types of foods and drinks to visitors are strictly prohibited. According to the contract made by and between IMPACT and the Organizer, it is clearly stated that IMPACT is granted the sole license to provide food and drink service within the exhibition area. Should there be any exhibitor wish to acquire food and drink service within the exhibition hall provided by other source of provider and / or wish to receive food and drink service in order to hold a banquet or a reception party, please contact:

IMPACT Exhibition Management Co., Ltd.

99 Popular Road, Banmai Sub-district,

Pakkred District, Nonthaburi 11120

Tel. +66 (0) 2833-5252 Fax. +66 (0) 2833-5253

2.16 Waste materials generated by construction activities such as scrap wood, thinner, oil or other inflammable materials left after construction completion at IMPACT **shall be cleared out** by the Service Provider. Disposing the wastes in any trash container belonged to IMPACT is also strictly prohibited.

2.17 Use of wall and / or floor sanding machine that causes dust inside the hall **is strictly prohibited.**

2.18 Any kind of spray painting inside the hall **is strictly prohibited.**

2.19 Use of fog generator or smoke machine and dry ice inside the hall **is strictly prohibited.**

2.20 Any action against the construction rules and regulations prescribed in this manual is strictly prohibited. In case of any doubt, the person in charge shall consult the Organizer before proceeding with the construction or any other actions.

2.21 Starting any type of vehicle with the air conditioning system turned on is strictly prohibited throughout the show period.

3. Regulations

3.1 Transportation and handling of construction equipment and booth structure into the exhibition hall require the service of the Official Service Provider, herein refers to Progressive International Service Co., Ltd.

3.2 Moving freights into the building which requires the use of auxiliary handling equipment such as forklift truck, towing equipment or crane, etc. shall be performed by Progressive International Service Co., Ltd. who is assigned as the Official Freight Forwarder Service Provider only.

3.3 Importation of foreign labour to work at the Bangkok International Motor Show is permitted only for the construction manager who requires obtaining a Thailand employment VISA (Work Permit) from the Royal Thai Embassy in the origin country of the labour. The construction manager is strictly prohibited from construction and dismantling by himself, including light, sound, and visual system installation on the catwalk or ceiling. The Organizer strictly enforces this regulation, if the Official Service Provider violates the regulation either intentionally or unintentionally, the Official Service Provider shall be suspended for 1 year.

3.3.1 Government authorities and the Department of Provincial Administration may conduct inspections without prior notice.If any violations of laws and regulations concerning foreign workers are found, the Official Service Provider shall be held responsible and receive a deduction of 1 point.

3.4 Fire extinguishers, ventilation fans, and trash containers must be brought into the premise on **March 17, 2027,** subject to the inspection by the Organizer.

3.5 Installation of electric post and tower requires a bottom supporting plate with the size of 1.00 x 1.00 meter, and the information of which shall be submitted for approval together with the drawings. It is required that the Organizer shall be informed to inspect the installation of the electric post and tower, which the approval must be granted before complete with the flooring material.

3.6 The use of hydraulic system for lifting and lowering vehicles at the height not exceeding 3.50 meters is allowed, whereas using such system to lift up and hold a vehicle all the time is not allowed, subject to the safety assessment with the drawing submitted to the Organizer.

3.7 Construction area entry permission shall only be granted by the Organizer to each category of the Official Service Providers. Those being allowed entry are requested for cooperation to adhere to the following regulations:

1. Wearing a hard hat at all-time when enter the construction area.

2. Wearing an Official Service Provider shirt, and trousers.

3. Wearing protective shoes.

4. Wearing an Official Service Provider badge, on the chest area only (The badge holders must supply for their own plastic badge cover.).

3.8 A signboard or schedule board for telling the time of show performance is required in all areas where automobiles and motorcycles are exhibited. The time indicator shall be installed so as to be clearly visible in telling the time of the next show which is a part of the regulations.

3.9 There is no objection to using trusses as a decorative part or for installing a sign board. The Organizer permits the display of a company name board on the truss subject to the condition that the board must be affixed to the truss itself, the board height is not more than 1.30 meter, and the booth structure shall not be connected to any part of the board.

3.10 All construction work shall be completed by **March 21, 2027 on or before 12.00 hours,** where the Service Provider shall hand over the booth to the Exhibitor on time so that the Organizer may perform a compliance assessment against system requirements.

3.11 The Construction work inspection will be executed on **March 21, 2027 from 18.00 hrs. to 19.00 hrs.** in order to examine every systems and security control in all booths. Therefore, the exhibition hall will be closed for one hour and everyone is kindly asked to leave the hall during the specified time for a test run on every systems and booth inspection. Exhibitors and all categories of Service Providers are allowed to resume their work again from 19.00 hrs. onward. Upon the continuation of the work, only the person with the special orange badge issued by the Organizer is allowed to re-enter the exhibition hall (The orange badge can be requested from the Organizer in which one badge can be exchanged for one person only.). This special orange badge must be presented in a clear plastic holder with neck strap, and shall be returned in good condition. In case of loss, 500 Baht fine will be imposed for each badge.

3.12 The height of the automotive stand shall not exceed 80 centimeters except in the area with decorative parts for displaying the vehicle; in the case of which permission is required from the Organizer before commencing any construction.

3.13 Raised floor construction for adjusting floor level is allowed. Every exhibition booth is required to raise its floor at least 10 millimeters but not higher than 20 centimeters whereby the surface must be covered with carpet or flooring material. However, the booth entry walkway shall be sloped upwards, and sharp edges and angles which pose danger to visitors shall be rubber-lined. Aluminum plate shall not be used because its sharpness is hazard-prone.

3.14 Bringing vehicles into Challenger Hall 1-3 for exhibiting is scheduled for between **March 19, 2027 at 08.00 hours and March 21, 2027 at 18.00 hours.** After the said date and time at 19.00 hours, the Organizer shall begin carpeting the walkways. Taking vehicles out of the building on the exhibition days shall be allowed after working hours only, whereby a proxy document issued by the director of the vehicle owner company shall be presented for obtaining permission to take the vehicle out of the building.

3.15 The Organizer has arranged for a vehicle test zone for car exhibitors only in the P9 car park area.

3.16 With regard to staff rooms for Challenger Hall 1-3 Exhibitors, the Organizer has arranged containers for rent as staff rooms for booth and pretty personnel. The containers are located behind the LOADING area. Notification shall be made within **March 5, 2027,** if a staff room is required.

3.17 The Official Service Provider Selection and Assessment

Offensive acts against the construction rules and regulations: In case of any offensive act against the construction rules and regulations is discovered, the Organizer shall impose;

Step 1 a verbal warning,

Step 2 a written warning,

Step 3 a point deduction (if more than 2 points are deducted, such Official Service Provider may be terminated from being an Official Service Provider.)

Step 4 a work suspension and may be asked to leave the exhibition venue. (Serious violations of construction nules and regulations)

The Service Provider Awards: For the Service Provider whom the construction rules and regulations are strictly observed and never been imposed to any point deduction, or those with the smallest point deducted will be considered as the best Service Provider of each category.

3.18 Obtaining permission to work after working hours each day during exhibition period may be done after the working hours at Room C15 before 19.00 hours of the day for which permission is requested. The incurred expenses comprise a fee based on work duration and electricity consumed.

4. Structure and Third Party Insurance

Structure Insurance and Third Party Insurance are the responsibilities of the Official Service Providers and Light, Sound and Visual Official Service Providers. And the evidence of insurance payment must be presented to the Organizers. In case of any accident inside your area without Structure Insurance and Third Party Insurance, thus the booth owners will be responsible for those damages and any expenses at unlimited financial amount. The Organizer has appointed an insurance agent to offer on-site insurance service. Further information could be obtained from Khun Pijak Srimahapholworakit (Viriyah Insurance) Tel: 08 1399 9698, Fax: 0 2635 7540

Sample calculation:

Insurance premium for 1st category: property insurance

Sum insured	2,000,000.00	Baht
Net premium	7,500.00	Baht
Duty	30.00	Baht
Tax	527.10	Baht
Total premium	8,057.10	Baht

Total premium	121.00	Baht

5. Presentation and show performance

The Organizer shall allow only the official Presentation Service Providers appointed by the Organizer (see the list in the Official Service Providers section) to control the presentation and show performance in accordance with the time table, which can be obtained from the Organizer. All Exhibitors wishing to present or perform shows shall submit the presentation and show performance scheme to the Organizer to obtain prior approval.

Presentation and show performance rules and regulations

1. These rules and regulations apply to all areas of the exhibition halls.

2. The presentation and show performance as well as the costume of presenter, actor and actress must be in the conformity as approved by the Organizer. Should there be any non-conformity to the costume, the Organizer shall ask for proper correction as approved before the next round of the show performance. The Official Service Provider is responsible for the control of shows and presentations in all exhibition areas.

3. All presenters, MCs, actors, makeup artists and hairdressers shall register for an entry ticket within **March 5, 2027;** whereby information on their roles and duties according to their work category shall be clearly provided (using Form 12). The Organizer has provided a common dressing room, located on the ground floor of parking area, Challenger Hall 3 for all presenters, which will be in service between 06.00-22.00 hrs. This dressing room serves as a common room, thus using the room for private purposes is strictly forbidden.

4. Show performance in the air through the use of sling must connect with the hanging truss structures that separated from truss structures for light and sound. The sling connected directly to the building structure is not allowed and such truss structure used for the performance must be submitted to the Organizer for prior approval within the determined date and time.

5. Official Presentation Service Providers are not allowed to request to the Official Light, Sound and Visual Service Providers to emit sound for any presentation and performance at levels in excess of the limit specified by the Organizer. If the Organizer detects or a complaint is filed for a violation of this provision, the Organizer shall record the non-conformity and impose 1 point deduction each time such violation is discovered, which will have an effect over the subsequent selection decision.

6. Show performance staged outside the assigned booth space is strictly forbidden. This provision effect all kind of the show.

7. Performing a show or operating amplified sound equipment outside the time slot scheduled for each booth or in excess of the duration specified by the Organizer is not allowed. Timing shall be based on the reference clock which the venue has arranged for. All Official Service Providers and Exhibitors shall calibrate their clocks against the venue's reference clock.

8. Presenting obscene show or acts contrary to good morals is strictly prohibited. If the Organizer detects or a complaint is filed for a violation of this provision, the Organizer reserves the right to withhold such show at an instant, and 1 point deduction shall be imposed to the Official Service Provider of the concerned category. Moreover, the Exhibitor and / or the Official Service Provider who entitled as the employer of such obscene show may be prosecuted by a government officer.

9. A signboard or schedule board for telling the time of show performance is required in all areas of Challenger Hall 1-3. The time indicator shall be installed so as to be clearly visible in telling the time of each show performance. As this is a part of the regulations, failure of the Service Provider to abide by this requirement shall result in 1 point deduction.

6. Badges Usage Regulations

The Organizer has provided various categories of badges which define benefit, right and duty differently from each kind to help facilitate your operation and for a proper inspection control. Accessing the exhibition hall incorporated various strict rules including the scope and timing given to the following badges;

1. **Exhibitor Badge:** For Exhibitors' staffs whose task is to station at their booth.
   Set up period: Valid from **March 16 to March 21, 2027**

   Show period: Valid from **March 22 to April 4, 2027**

   Dismantling period: Valid from **April 5 to April 6, 2027**
2. **VIP Badge:** For Exhibitors' Executives.

   Valid from **March 22 to April 4, 2027**
3. **Special Guest Badge:** For Exhibitors' Invitees.

   Valid from **March 22 to April 4, 2027**

   Complimentary Ticket (Soft Type): Arranged for Exhibitors to distribute to their customers and others.

   Valid from **March 24 to April 4, 2027**
4. **Official Service Provider Badge:** Arranged differently to each type of the Official Service Provider's personnel in which they are a member.
5. **Pretty & Presenter Badge:** For Pretty, Presenter, Actor, Actress and Emcee.

   Valid from **March 21 to April 5, 2027**
6. **Staff Badge:** For make-up artist, costumier, etc.

   Valid from **March 21 to April 4, 2027**
7. **Special Badge (Orange):** For granting privilege beyond normal operation hours.

   Valid on March 21, 2027: 18.00-24.00 hours.

   Valid from March 22 to March 23, 2027 : 20.00-24.00 hours.

   Valid from March 24 to April 4, 2027 : 22.00-24.00 hours.

To request for a special badge (orange badge), please complete Form 9 and have it submitted before 19:00 hours of each day The Official Service Providers are require to strictly control the distribution of the badge to personnel in their respective departments. Each badge holder is required to strictly follow the badge provision namely the neck hanging badge must be worn around the neck only while the chest type badge must be worn on the chest area accordingly. If a clear plastic holder and neck strap is not available with the badge, such person will have to provide the aforementioned items on their own. Failure to return the card will result in points deduction or 500 Baht per card.

Proper Badge Handling			
1.	Exhibitor	Neck Hanging Type	VIP, Special Guest, Exhibitor
2.	Official Service Provider	Chest Type	Official Service Provider
3.	Pretty, Presenter and / or Emcee	Neck Hanging Type	Pretty & Presenter
4.	Make-Up Artist	Neck Hanging Type	Show staff and makeup artists.
5.	Special Badge (Orange)	Neck Hanging Type	Everyone who is permitted to perform task beyond normal operation hours.

Any misuse of the badges as per details prescribed above, the Organizer will ask the holder to return the badge and reserve the right not to reissue the badge in case of any offensive act.

7. Light, sound and visual systems

Light, sound and visual system rules and regulations; an Official Light, Sound and Visual Service Provider shall study the rules and regulations and strictly abide by their requirements for the reason that failure to follow these construction rules and regulations shall affect the performance assessment of the following year. Handling the light, sound and visual systems within Challenger Hall 1-3 shall be performed by 8 Official Light, Sound and Visual Service Providers only. (See the list in the official Service Providers section).

Safety is the first priority when commencing work. Working on the truss must strictly comply with the followings;

7.1 Wearing protective clothes and safety accessories comprising gloves, hard hat, clothes which cover the entire body, sneakers, and body sling all the time while working on trusses. If any Service Provider does not see to it that its workers and personnel observe this rule, such worker will be suspended from work in an instant, and **1-point deduction penaltyshall be imposed.**

7.2 Truss Hanging Inspection

Hanging truss for the installation of systems and decorations must be executed by the Official Service Provider only.
For the proper usage, truss hanging can be divided into 3 purposes as follows;

7.2.1 Truss hanging for the installation of light, sound, visual and LED system

7.2.2 Truss hanging for decoration

7.2.3 Truss hanging for show and performance

One truss for one purpose only, using one truss for multi purposes is strictly forbidden and must abide by the following inspections;

Drawing Inspections

1. The layout plan for the installation points of lighting, sound, and visual equipment, decoration areas, and performance areas. The layout plan should be combined with the ceiling point hanging plan of the building, which must have a numbered reference. The hanging points for the hoists should be clearly indicated. You may request an Auto CAD file of the ceiling layout to overlay onto your booth plan (an example of the hoist hanging point layout is included in the construction manual).
2. A calculation plan for the total weight of the equipment and the weight calculation for each hanging point, signed and certified by an engineer.
3. Inspection of the electrical wiring layout plan.
4. Inspection of the safety railings and related safety equipment.
5. Inspection of the safety suits and safety equipment.

Inspection during the construction and show period

1. Inspection of truss height; the maximum allowable height from the building floor to the truss structure's lowest point must not exceed 9.00 meters.
2. The size of the decorative parts attached to the truss structure must not higher than 1.30 meters and must not position lower than 7.70 meters when measure from the building floor.
3. Safety line sling or other fall prevention equipment must be securely fastened around the truss structure for the safety of the workers.
4. Before lifting up or down the truss structure, please notify the Organizer so that an inspection can be conducted by the Organizer and the venue's engineer. If the installation of the truss structure conforms to the drawing approved by the Organizer, the truss structure then shall be allowed to lift up.
5. Any part of the attachment made to the truss structure must not protrude out of the booth area, of which the inspection will be done vertically.

6. Working on the truss structure at the height of 2.50 meters and above, such worker is required to properly wear a helmet and a safety suit securely hooked with a safety harness to prevent the worker from falling down the truss structure at all time.

7.3 Sound level measurement shall be based on the same standard; that is, the sound level shall be measured 2.00 meter away from the booth boundary line. The sound volume being measured on-site shall not exceed 80 decibels. This rule shall be applied consistently in all areas.

7.4 Operating amplified sound equipment shall be within the time slot scheduled by the Organizer only. Detailed requirements are as follows:

7.4.1 Operating amplified sound equipment during the period without presentation or show performance shall be for the sole purpose of playing light background music (to be determined during the exhibition). Use of a microphone or a megaphone for publicizing is strictly prohibited.

7.4.2 While operating the amplified sound equipment during the period of presentation or show performance within the time slot scheduled by the Organizer, all equipment can be fully utilized as planned. The sound volume for this specific period shall not exceed 80 decibels.

7.5 Fall prevention equipment must be provided on the truss structures. The installation of safety line sling must be securely fastened around the truss structures for the safety of the worker whose work on the truss structures is compulsory, whereby the safety line shall be hooked with a safety harness to prevent the worker from falling down the trussstructures.

7.6 Sound system installation shall be executed in an identical fashion, whereby all speakers must be faced toward each exhibitor own booth, and must be installed at 45- degree angle tilted down.

8. Specific information of Challenger Hall 1-3

Floor space	60,000 square meters	
Load capacity	Pole 1-14 = 4,000 kilograms / square meter	
Load capacity	Pole 15-51 = 2,000 kilograms / square meter	
Type of floor surface	concrete	
Floor to ceiling height	18 meters	
Electric potential	220 / 380 Volts	
Loading entrance (rear side of the building)	8.00 x 5.00 meters (width x height)	
Loading Surfaces:		
Loading Areas	2,500	Kg/Sq.m.
Loading Ramps	2,500	Kg/Sq.m.
Exhibition Hall	4,000	Kg/Sq.m. (1-14 = 4,000 Kg/Sq.m.)
Exhibition Hall	2,000	Kg/Sq.m. (15-51 = 2,000 Kg/Sq.m.)
Pre Function Area Level	650	Kg/Sq.m.
Meeting Room (Jupiter)	650	Kg/Sq.m.
Royal Jubilee	1,000	Kg/Sq.m.

Services

- **Food center and restaurant**

  Food centers and restaurants are located within Challenger Hall 3 and loading area.

- **ATM and bank**

  Bank of Ayudhya is located in front of Hall 8.

  ATM of Bangkok Bank is located in the lobby inside the Challenger Hall 1.

  ATM of Krung Thai Bank is located in the lobby inside the Challenger Hall 2.

  ATMs of Krung Thai Bank, the Bank of Ayudhya ,and the Siam Commercial Bank are located inside the Challenger Hall 3.

- **Car parks**

  1. Car park area, ground floor of Challenger Hall 1-3; 2,203 cars (w. chargeable fee)
  2. Car park area, zone P2; 2,334 cars (w. chargeable fee)
  3. Car park area, zone P3; 1,332 cars (w. chargeable fee)
  4. Car park area, zone P4, P5; 1,378 cars (Free of charge)
  5. Car park area, Active Square zone; 922 cars (Free of charge)
  6. Car park area, Challenger Preloading; 351 cars (Free of charge)

- **Shuttle bus service location**

  Air-conditioned bus service is offered for both exhibitors and visitors between Mo Chit sky train station and Challenger Hall. Boarding locations are Mo Chit sky train station (on the side of Jatujak Park) and in Front of Challenger Hall.

- **Air-conditioning system**
  - Air-conditioning systems are not provided during construction period from **March 16-21, 2027.**
  - Air-conditioning system testing will be made on **March 21, 2027 from 12:00 hrs. to 18:00 hrs.**
  - Air conditioning system will be provided during the show between **March 22 and April 4, 2027 from 9:00 hrs. to 22:00 hrs.**
- **Exhibition hall's electrical and lighting system**

  Exhibition hall's electrical and lighting system will be activated within 2 hours before the opening hour of each day and deactivated within 1 hour **after the closing hour of each day.**
- **Public toilets**

  Public toilets are ready for service 2 hours before the opening hour and will be closed 1 hour after the closing hour.
- **First aid room**
  - During the construction period: open 24-hour.
  - During the exhibition period: Opening and closing hours are of the same as the exhibition hours.
- **Security control**

  Security control is provided to ensure safety around the premise.
- **Business Center**

  The business center provides overseas call service, fax service, telephone card sales, currency exchange service, and internet service.
- **Administration department**

  The administration department provides all exhibition-related services during the construction and dismantling periods including exhibitor request form services, and exhibition-related information services. The administration department is located at **Room C6 in front of Challenger 2 and, Room C15 located backside of Challenger 3, and Room C10 B located backside of Challenger 2.**
- **Public relations office**

  The public relations office provides all exhibition-related services during the exhibition period and exhibition-related information services. The public relations office is located at **Room C8 – C9 in front of Challenger 2.**
- **Lost and Found**

  Lost and found can be informed at the administration department, **Room C6.** If the footage from the CCTV cameras is requested, the suppliant must report the police about the case and present the police notification to view the footage.
- **Public Utilities**

  Public utilities can be requested and the incurred expenses can be settled at **Room C10B.**

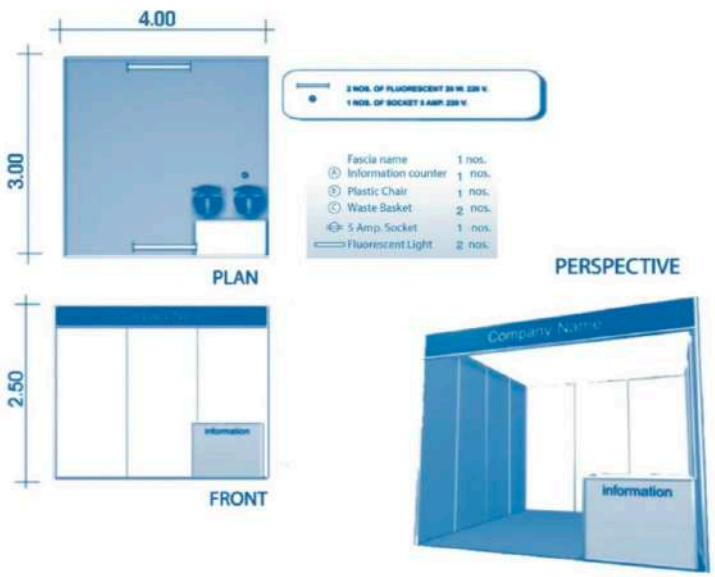
9. IMPACT, Standard Booth

A standard booth shall be of a 3 x 3 meters or 9 square meters size per booth, a 3 x 4 meters or 12 square meters size per booth, and shall comprise the following equipment:

1. Company fascia name board with the width x length size of 280 x 30 centimeters for displaying the name composed of not more than 20 characters, of which the Exhibitor shall inform the Organizer through the use of **Form 7**
2. 1 desk with the size of (W x H x D) 100 x 80 x 50 centimeters, 2 chairs, 1 trash can;
3. 2 fluorescent lamps;
4. **1 unit 5-amp electric outlet (Supplying power to a lighting equipment is not permitted.) The use of 5-amp electric outlet with a lighting equipment is not permitted. If IMPACT inspects and finds that it has been used, it shall lead to the imposition of 10,000 Baht fine per 1 outlet.**

STANDARD BOOTH 3x3 M

STANDARD BOOTH 3x4 M



RULES AND REGULATIONS FOR STANDARD BOOTHS

1. Booth Decoration and Construction Restrictions

Exhibitors are strictly prohibited from covering or altering the existing booth walls. The use of glue, nails, drilling, or making holes in the walls is strictly prohibited. Covering or placing any additional signage over the original booth nameplate is also strictly prohibited.

2. Electrical Outlet Usage

The electrical outlets provided with standard booths are intended for equipment use only. They must not be used to connect spotlights or other lighting fixtures under any circumstances. In the event of a power failure caused by a violation of this regulation, the Organizer reserves the right to impose a penalty based on the damages incurred.

3. Booth Space Restrictions

Exhibitors are strictly prohibited from placing or displaying any items or products beyond the designated booth boundaries.

4. Self-Decoration and Construction Approval

Exhibitors wishing to carry out their own booth decoration or construction must notify the Organizer and obtain approval prior to commencement of any construction work. The booth construction drawings must be submitted, and a damage deposit must be paid in advance.

5. Sound System Restrictions

The use of audio equipment and sound amplification systems is strictly prohibited under all circumstances.

6. Product Testing Restrictions

Exhibitors are strictly prohibited from testing or operating any products on the carpeted aisles or in any common areas of the exhibition venue.

10. Construction schedule and exhibition hall opening-closing hours

Challenger Hall 1-3 / Booth A1-A28, M1-M6		
Truss hanging:	March 16, 2027	06.00-20.00 hours
Truck delivering articles into the hall:	March 17-20, 2027	08.00-20.00 hours
Loading vehicles for display into the hall: All codes	March 20, 2027	08.00-24.00 hours
	March 21, 2027	08.00-17.00 hours

Challenger Hall 1, Booth Code F1-F24		
Truck delivering articles into the hall	March 19-21, 2027	08.00-20.00 hours
Loading vehicles for display info the hall	March 20, 2027	08.00 - onwards
	March 21, 2027	08.00-18.00 hours

Challenger Hall 1, Car Accessories Booths codes D1-D9, Standard Booths		
Standard booth decoration day	March 20-21, 2027	08.00 - onwards.
Loading vehicles for display info the hall	March 20, 2027	08.00-24.00 hours
Day fo product import into the area	March 21, 2027	08.00-17.00 hours

Exhibition hall access date & time schedule / Exhibition hall access regulations for booth personnel		
Press day:	open at 08.00 hours	closed at 22.00 hours
VIP day:	open at 09.59 hours	closed at 18.00 hours
Public days (weekday):	open at 10.00 hours	closed at 22.00 hours
Public days (Saturday and Sunday):	open at 09.00 hours	closed at 22.00 hours

Exhibition hall access after the regular hours

Working after the regular hours: In case of working before the opening hour and / or after the closing hour is required, the Organizer shall be informed of such request in written format using Form 9 and submitted before 19.00 hours of the date wish to perform work.Transportation and freight handling for standard booths during Public days: Transportation and freight handling during the Public days is allowed for products restock of those in standard booths. All trailers and trucks are required to park at the designated pre-loading area only, and also required to register for a queue card in order to arrange trailers and trucks into the car accessories hall at the specified time. Failure to follow the time schedule will be punished with a fine. Once all the transportation and freight handling are completed, all the trailers and trucks must leave the hall and shall return the queue card.

11. Electric power

Use of electric power in construction work and for testing equipment requires submission of Form 3 and Form 4. The Organizer will supply electric power on the date and during the time requested only. **Supply of electric power during exhibition period shall commence on March 21, 2027 from 16.00 hours onwards, and is subject to the result of the electric power inspection conducted by the Organizer.** If your construction is not ready or does not pass the inspection, the Organizer reserves the right not to supply electricity until the proper correction has been carried out.

Rules and regulations for electrical system inspection

11.1 Safety shall be given first priority among all considerations. All electrical system installations shall be performed by a skilled engineer or technician only. In case of incidence due to negligence causing power failure or short circuit, the Organizer shall impose a point deduction penalty to the Service Provider.

11.2 Floor plan showing the location of electrical control point(s) within the booth shall be submitted to the Organizer for approval before the installation commences.

11.3 A ground wire shall be installed to prevent electrical leakage.

11.4 The Organizer shall conduct wiring inspection and shall request for correction if any non-conformity is detected. The Organizer shall strictly in no circumstance start supplying the electric power if the problem remains unsolved.

11.5 Feeding electric power for use during the exhibition period shall be based on the inspection performed by the Organizer, whereby the Service Provider shall submit a request form for the said supply.

11.6 Piling construction materials and tools up on power cords and cables is strictly prohibited.

11.7 Metal electric tower or steel structure used for installing equipment or lamps shall be wired to other electrically conductive tower and equipment.

11.8 Use of a dimming system or power saving system requires careful checking of its electrical rating. If the incompatibility causes power failure, the Service Provider shall be liable for the total damage.

11.9 Installation of a lamp to provide lighting in the displayed vehicle is allowed under the condition that the lamp and its cable joint are insulated to prevent direct contact; and the wiring shall not be through the vehicle door, but preferably through the opening under the vehicle chassis.

11.10 Placing electric cords or cables on the floor and covering them with a carpet are strictly forbidden. Wiring shall be properly installed.

11.11 Charging vehicles using the 24 hour electrical supply after the show's closing hour, is strictly prohibited.

Regulations for Electric System

1. Service Providers who wish to use electricity must order the main electric cable in a size that suits the needs of usage.At.least 25% of electric power is compulsory to be added on top of maximum power demand. This is to comply with Safety Factor and to avoid accidents that may cause by the full power consumption.

2. Cables used for electrical wiring within the booth must be of the correct type and size in accordance with the standards, and must be grounded at all points. If it is found that the use of electrical cables does not meet the standard size, or if the installation is detected to be unsafe according to the specified standards, the company reserves the right to temporarily suspend the electricity supply. Once it is fixed to be in line with the standards, the electricity supply will be resumed.

The cable size is specified based on the size of the circuit breaker as follows:

Size of Circuit Breaker	Size of Cables
15 Amp./220V.1P 50Hz.	VCT 2C-4/2.5(G) Sq.mm.
15 Amp./380V.3P 50Hz.	VCT 4C-4/2.5(G) Sq.mm.
30 Amp./220V.1P 50Hz.	VCT 2C-6/2.5(G) Sq.mm.
30 Amp./380V.3P 50Hz.	VCT 4C-6/2.5(G) Sq.mm.
60 Amp./380V.3P 50Hz.	VCT 4C-16/6(G) Sq.mm.
100 Amp./380V.3P 50Hz.	VCT 4C-35/10(G) Sq.mm.

3. Electrical wiring under the wooden floor or carpeted floor must use double insulated cables, such as VCT, NYY cables. Other than that, it must be wired in the conduits.

4. Electrical wiring across the central gangway is strictly prohibited.

5. For wiring out of a circuit breaker for both 220V 1P and 380V 3P 50Hz electrical power systems, only one circuit is allowed. If more than one circuit is needed, an electrical control cabinet must be installed as follows:

5.1. Load Center for 3-phase power system

5.2. Consumer Unit for 1-phase power system

If it is detected that there is no installation of the electrical control cabinet, the company reserves the right to suspend the electricity supply. Once the installation of the electrical control cabinet is completed, the electricity supply will be resumed. When connecting electrical wires to the company's breaker, it must be connected with ring terminals only. Bare wires are not allowed to be directly connected to the breaker.

Load Center for 3-Phase Power System

Ring Terminal

Double Insulated Cable (VCT)

Consumer Unit for 1-Phase Power System

6. Service Providers must install the breakers in the storeroom in an organized fashion and locate them in a safe and unobstructed area. The area must be convenient for the electrical team to conduct a service and inspection. The wires and / or cables must be neatly organized in place. The wires and / or cables should not be left in an area where they may be stepped on or where people walk in and out. If necessary, it must be neatly covered in an electrical raceway for safety and to prevent from stepping on, which may cause an accident making power outages or trips.

7. Displayed vehicles that are equipped with a charger must be installed with a grounding system at all points for the safety of visitors.

8. For the standard practice of electrical services and for the safety of visitors, Service Providers must install the grounding system at all metal structures and all kinds of electric equipment located within customer's exposure areas, such as television (both hanging and standing types), LED screens, chargers, coffee machines, LED strip lights, etc.

9. The use of electric power for construction days, the wires and / or cables must be of an appropriate size to the circuit breaker, and the electric control cabinet must always be installed. Connecting bare wires to a power socket during the construction period is strictly prohibited.

Electrical services

1. The Organizer shall arrange for lighting in the exhibition hall during the working hours only, and shall turn off the light 30 minutes after the closing hours.
2. The Official Electrical Service Provider for this exhibition is Exposition Technology Co., Ltd. Electrical system installations in all standard booths shall be performed by Exposition Technology Co., Ltd. only.
3. The Organizer has provided the electric power supply for construction and demolition, in which the electricity will be supplied in a sharing fashion. Thus, the electricity may not be adequately supplied if the size of the Exhibitor's booth is considerably large and require big amount of power supply. In order to prevent the construction work from being completed behind the determined schedule and for your convenience, a specific power supply service point can be provided with additional service charge accordingly to the specified timing as requested using Form No. 3; Electric power for construction and dismantling.

- **Submission of the form later than the due date from February 13, 2027 shall result in a fine of 10% above the invoice amount.**
- **Submission of the form later than the due date from March 16, 2027 shall result in a fine of 30% above the invoice amount.**
- **Submission of the form later than the due date from March 22, 2027 shall result in a fine of 50% above the invoice amount.**
- **Cancellation process requires a written notification. Any overdue submission will resul in 30% refund of the amount charged. The Organizer reserves the right to charge 100% of the invoice amount if the cancellation request is submitted during the show period.**
- **If a breaker is required to be moved from the installed location, a service charge of 5,000 Baht/breaker shall be levied.**
- **For 24-hour use of electric power, the price shall be increased by 100%. "24 hours" shall be entered in the "Units required" colum n. Otherwise, the Organizer will consider that the request for 24-hour service has not been made.**

4. The Official Electrical Service Provider shall supply electric power for all booths up to 30 minutes before and after the operation hours. If an Exhibitor requires 24 hour electric supply or additional equipment, the Exhibitor shall bear all related expenses at own costs.
5. Electrical wiring or connection from the main electric supply of the building by the Exhibitor is strictly prohibited.
6. Connecting electric circuit, performing electrical adjustment, applying multiple sockets to the power outlet without permission shall result in power cut off without prior notice.

12. Requirements for construction area access

12.1 Wear an Official Service Provider shirt of the category appointed by the Organizer.

12.2 Wear an Official Service Provider badge at all time, and on the left chest area only.

12.3 Wear clothes that fit properly, sneakers or protective shoes and hard hat as a preliminary step to preventing hazards.

13. Security control

13.1 The Organizer has arranged for security guards to ensure 24 hours safety only within the exhibition halls, at the building entry and exit points and common areas.

13.2 The Organizer shall allow the persons with exhibition entry ticket to enter the exhibition halls according to the ticket type and working hours of the exhibition halls only.

13.3 Bringing explosives, hazardous chemicals, weapons, or cooking gas into the exhibition halls is strictly prohibited.

13.4 As part of the security control, the Organizer and IMPACT have also provided surveillance cameras in addition to the primary security guards. These surveillance cameras are located at the points where all public areas can be covered, whereas the inside of each booth will not be captured. If loss of property happens to occur inside the booth, in which a requirement to view the image of the surrounding area is necessary, such case must be notified to a police officer so that the case report can be issued, and submitted to the Organizer as a supplement for viewing the footage.The Organizer and IMPACT will help facilitating the case.

The Organizer and IMPACT would like to recommend the Exhibitor to have a CCTV installed inside your own booth, or acquire an additional cabinetwith a lock as a preventive measure for the potential loss of property.

14. Food and drink service

The Organizer does not allow any Exhibitor to bring foods and drinks into the exhibition halls, except for those in the food and drink category being formally granted permission by the Organizer. Upon violation being detected, the Exhibitor shall have to pay 50,000 Baht / booth / day fine to IMPACT Exhibition Management Co., Ltd.

15. Rules and regulations to enter worksite areas for booth cleaning

15.1 Outside cleaning firms shall register with the organizer and hand the name list of all cleaning workers.

15.2 All types of cleaning workers shall wear their company uniform and badge issued by the Organizer in order to enter the exhibition area.

15.3 Use of common areas, walkway and fire escape routes as relax area for cleaning workers or as a storage space for cleaning equipment is strictly prohibited. Upon violation inspection, the Organizer shall give warning and in case of such repeated act, fine based on the volume of obstruction shall be imposed.

15.4 Booth shall be cleaned on construction days, whereby throwing scrap wood and material wastes into IMPACT trash cans is strictly prohibited. The garbage shall be removes outside. Violation to this requirement shall result in fine imposition based on the garbage volume.

15.5 Entry and Exit times for outside cleaning workers are as follows:

Construction and dismantling days	: 24 hours
Public days (weekdays)	: 10.00-22.30 hrs.
Public days (holidays)	: 09.00-22.30 hrs.

15.6 All booth shall be provided with a trash bin.

15.7 Dragging used garbage bags across the carpet is strictly prohibited, as this may cause leaked garbage liquid to stain the carpet in the aisles. If a violation is found and the stain cannot be removed, a fine will be imposed based on the size of the affected carpet.

16. Transportation and freight handling

The Organizer has appointed Progressive Professional Service Co., Ltd. as the sole Official Freight Forwarder Service Provider to take care of freight handling at the IMPACT exhibition site of the Bangkok International Motor Show.

Progressive Professional Service Co., Ltd. is assigned the following responsibilities:

- coordinating and managing truck queues to avoid congestion;
- handling incoming and outgoing exhibits between the receiving areas and the exhibition areas;
- offering freight handling equipment and machinery for moving exhibits; e.g., crane and forklift truck;
- offering storage space and labor for freight moving and handling; and
- offering other services, about which the Exhibitors may obtain further information from the service counter.

Procedures for freight handling at the exhibition site

In order to avoid delay, congestion and accident which may arise during the freight handling into and out of the Challenger Hall 1-3, IMPACT Muang Thong Thani, Progressive International Service Co., Ltd. shall arrange for a truck queuing system between the entrance gates and the exhibit unloading and exhibition areas. Exhibitors are requested to follow the requirements prescribed below:

1. While awaiting unloading, trucks can be parked in the P9 car park reserved area on March 16, 2027 from 01.00 hours.

2. Truck shall be registered with the Official Freight Forwarder Service Provider in order to have a queue card issued and fees calculated before entering the construction areas. Traffic facilitation fee shall be paid, at the rate of 100 Baht per pickup truck or 200 Baht per truck larger than pickup.

3. Driving a truck into the building requires issuing of a queue card by the Official Freight Forwarder Service Provider whereby entry and exit times shall be based on the predefined scheduled.

4. The details of construction site access for each area are as follows:

4.1 Trucks carrying goods for exhibition area A, area M shall be allowed to enter the building from March 16, 2027 at 08.00 hours to March 20,2027 at 17.00 hours.

4.2 Trucks carrying goods for exhibition area F shall be allowed to enter the building from March 19, 2027 to March 20, 2027 at 17.00 hours.

4.3 Trucks carrying goods for exhibition area D and automotive accessory shall be allowed to enter the building from March 20, 2027 to March 21, 2027 at 17.00 hours.

5. Moving freights into the building which requires the use of auxiliary handling equipment such as forklift truck, towing equipment or crane shall be performed by the Official Freight Forwarder Service Provider only.

6. Placing freight or handling equipment which has been moved inside on the walkway is strictly forbidden. If the Organizer finds that any object obstructs the walkway, it shall remove the obstruction without advance notification.

7. Freight forwarders that have not been appointed and have not obtained permission from the Official Service Provider are strictly prohibited from entering the construction areas to handle cargo or carry out any other activities. If a violation is found by the Organizer, the Organizer reserves the right to suspend the freight handling activities of the respective service provider. The service provider must obtain permission from the Official Service Provider before resuming work and must re-queue at the P9 loading area before being allowed to enter the construction areas.

8. If any outside freight forwarder has an intention to or purposely attempts by any means to violate the construction rules and regulations, the Organizer shall give warning and record the nonconformities; and in case of negligence, the Organizer reserves the right to strictly disallow the forwarder's entry to perform freight handling with the exhibition premises in the following year, and shall inform all Exhibitors in writing of the said action.

9. The Official Construction Service Provider shall be responsible for requesting an event confirmation letter from the Organizer and IMPACT, the event venue. A request for an event confirmation letter for the importation of goods, vehicles, or other equipment for exhibition purposes shall be accompanied by a complete list of all items to be imported, together with concise information on the display period and the re-export date. The bill of lading or air waybill shall also be submitted to the Organizer. Progressive Professional Service Co., Ltd., the Official Freight Forwarding Service Provider,shall inspect all import and re-export documents. The company shall also inspect the goods and equipment by opening and closing the containers. An inspection fee will be charged based on the size and weight of the cargo.

10. No goods of any kind are allowed to be loaded in the loading dock behind Challenger Hall 1-3. Specifically, vehiclesto be displayed must be unloaded at the P9 parking lot, both for entry and exit. The Organizer will only permit vehicles that have passed inspection by the Official Service Provider.

*** The Organizer reserves the right to issue the Certificate of Participation for submission to the Customs Department only to Exhibitors, Official Contractors, Official Freight Forwarder, Presentation Officials, and Light & Sound Officials.

Freight handling at the exhibition site

Exhibits shall be delivered during 08.00-17.00 hours. Outside the working hours, the company shall charge extra 50% above normal rate for overtime service. The company shall complete the tasks after 24.00 hours. Moving exhibits from an unloading area to an exhibition area or from an exhibition area to a loading area shall be charged per trip for different freight volume as follows:

01-10 CBM-LCL	2,000.00	Baht / CBM
1x20 feet container (cargo container)	50,000.00	Baht
1x40 feet container (cargo container)	120,000.00	Baht

**** Extra charge for the use of high cube or open top container is 25% above normal rate (goods shall weigh not over 2,000 kgs. per piece).

Labour: Freight handling workers are available during the working hours at 1,600.00 Baht / 4 workers / 1 hour (minimum hiring of 4 hours is required.).

IMPACT storage space: Storage charges are:

Open storage space	72 Baht / CBM / day
Warehouse space	88 Baht / CBM / day

***** 1x20 feet container = 25 CBM
***** 1x40 feet container = 60 CBM
**** Extra charge for the use of high cube or open top container is 25% above normal rate.

Crane or forklift truck: During working hours, cranes or forklift trucks for freight handling are available for general clients at the following service rates:

- For 16 ton weight 3,000.00 Baht / hour
- For 20 ton weight 3,500.00 Baht / hour
- For weight above 20 tons, fee shall be increased as the company deems appropriate (minimum 4 hours service).

16.1 Freight forwarding

Progressive Professional Service Co., Ltd. has been appointed as the Official Freight Forwarder Service Provider directly responsible for both international and domestic freight forwarding, and granted the sole right to control freight handling within the exhibition halls.

1. **Progressive Professional Service Co., Ltd.**

603/104 Nuan Chan, Nuan Chan, Bueng Kum, Bangkok 10230

Tel: (+66)-2108-5822, E-mail: ppsprogessive@gmail.com

Progressive Professional Service Co., Ltd. therefore appoints additional 2 firms to serve more efficiently and offer greater flexibility in providing more standardized services, namely:

2. **Ocean Air International Co., Ltd.**

1249/219 38th Flr., Gems Tower, Charoengrung Rd., Suriyawongse, Bangrak, Bangkok 10500

16.2 Confirmation Letter for Temporary Admission for International Meeting and Exhibitions

The Organizer has regulations for the import and export of all types of merchandise, including vehicles and motorcycles that will be displayed at The Bangkok International Motor Show. Those who wish to request an official letter of approval for the event to apply for tax exemptions for the merchandise that to be displayed. The request can be made by the exhibitor or a shipping company that is not the Official Service Provider but has received the merchandise from the exhibitor. They must comply with the Organizer's regulations, which have been set and assigned to Progressive Professional Service Co., Ltd. as the official representative to inspect all stages of the import and export process of all merchandise from start to finish. This is mainly because the Organizer must issue a letter of certification for the event and IMPACT will issue the certificate for the event venue. The process must include customs verification for the merchandise that to be displayed, ensuring their correctness and completeness, and confirming there is no discrepancy or evasion of customs regulations for both import and export process. The merchandise must match the documents provided. Any errors or customs violations may result in customs preventing the goods from being imported and displayed at the event in subsequent years.

To prevent any errors in customs procedures, the organizer has outlined the necessary steps and documents:

1. The Official Construction Service Provider shall be responsible for completing the goods import / export form as per Form 13 and specify the mode of transport (land, sea, or air).
2. Provide the invoice and details of the goods being imported and exported for the event.
3. Progressive Professional Service Co., Ltd. will be responsible for inspecting the opening and closing of the containers and checking the accuracy of the merchandise, in accordance with the customs department's procedures, which have been updated to facilitate the organization of international conferences and exhibitions. This also includes granting exemptions on duties for merchandise imported for use in such events.

   For any exhibitor wishing to bring goods into Thailand temporarily for an international event or exhibition, they must comply with the customs department's guidelines and conditions.

1. Basic Conditions for Temporary Admission and Re-Export of Goods for International Meetings and Exhibitions

(1) Goods under temporary admission are required to be re-exported within a time-limit set by Customs. Normally, the set time-limit is not more than 6 months. An importer is required to deposit bond and security to Customs, either in a form of cash deposit or a bank guarantee, to ensure the re-exportation of the goods and that Customs regulations are respected.

(2) A proof of re-exportation e.g. a copy of certified Export Declaration, etc. must be presented to Customs for verification and security refund upon re-exportation.

(3) In case where the goods under temporary admission are not re-exported within the time-limit set by Customs, the importer needs to pay liable taxes and duties as follows:

- -In case where the application for tax/duty payment is made before the deposited bond and security is due, Customs shall calculate taxes and duties in accordance with the nature, value, and tariff rate at the time when the goods under temporary admission are imported, including applicable fees under related laws.
- -In case where the goods are re-exported after the temporary admission documents and the deposited bond and security are due, Customs shall impose the bond and security.

2. Temporary Admission for International Meetings

(1) Goods intended for use at international meetings organized by agencies of either Thai or foreign governments; international organizations accredited by the Thai government; or private sector provided that such meetings contribute to the national economic, social and technological development.

(2) Goods necessary for the meetings e.g. document files, records, forms, etc. of which values are low and explicitly imported for free distribution to persons attending the meetings, including articles used up during the meetings e.g. articles for display or demonstration, with reasonable amount.

(3) Goods other than those in (1) and (2) are required to be re-exported within 3 months from the date of importation and the importer needs to deposit bond and security to Customs.

(4) The Prohibition and Restriction Act must be followed strictly.

(5) Lists and quantities of goods must be submitted to the Customs offices/houses at the port of entry for approval on a case by case basis.

3. Temporary Admission for International Exhibitions

(1) Goods intended for use at international exhibitions and fairs which is open to public at large in Thailand.

(2) An importer is required to deposit bond and security to Customs to ensure the re-exportation of goods within the time-limit.

(3) In case where the imported goods are used up during the exhibitions and fairs e.g. printing materials, advertising materials, souvenirs, free sample, etc., the importer needs to pay liable taxes and duties.

4. Documents for Customs Procedures

(1) Import Declaration: one original and one duplicate
(2) Bill of Lading or Air Waybill
(3) Invoice
(4) Release Order (Kor Sor Kor 100/1)
(5) Foreign Transaction Form in case where the CIF value of the imported goods exceeding 500,000 Baht
(6) Packing List
(7) Insurance Premium Invoice
(8) License or permit for restricted imports
(9) Application for Tax/Duty Relief and Bond: The application may be issued by an importing company and contains the following particulars:
- Description of imports
- Purpose of importation
- Venue and duration of the meetings or exhibitions/fairs
- Numbers of attendances (for international meetings)

(10) A certified letter from a meeting organizer and from an owner of the venue for an international meeting

Remarks: a confirmation letter shall be requested by filling in Request Form 13, and send it to **PROGRESSIVE PROFESSIONAL SERVICE CO., LTD** in order to examine the information on the importation and the exportation.

5. Temporary Admission Procedures

(1) An importer/agent submits a request for temporary admission, a Goods Declaration, including supporting documents to the Customs Offices/ Houses where the goods are imported.
(2) Customs verifies the Goods Declaration and supporting documents against the given information, then issues a Goods Declaration number and calculates the amount of security.
(3) The importer/agent deposits the security at a Cashier Office.
(4) The evidence of deposited security is presented to a Cargo Inspection Office for the release of goods from Customs custody.

Documents required for sea and air freight forwarding:

- a original and 3 copies of bill of lading or air waybill
- a copy of commercial invoice
- a copy of packing list
- a copy of exhibit insurance policy (if applicable)
- a original set of ATA Carnet document (in case of carnet shipment)
- a copy of ATA Carnet permission letter (in case of carnet shipment)

(1) An importer/agent submits a request for temporary admission, a Goods Declaration, including supporting documents to the Customs Offices/ Houses where the goods are imported.
(2) Customs verifies the Goods Declaration and supporting documents against the given information, then issues a Goods Declaration number and calculates the amount of security.
(3) The importer/agent deposits the security at a Cashier Office.
(4) The evidence of deposited security is presented to a Cargo Inspection Office for the release of goods from Customs custody.

Documents required for sea and air freight forwarding:

Visa: In general, temporary import permit periods are:

- 3 months for sea freight; and
- 2 months for air freight.

Temporary import permit:

Vehicles may be temporarily imported for displaying at the show. ATA Carnet is accepted by the Thai Customs Department provided that a permit is obtained prior to arrival of the exhibits.

For new vehicles, the permit shall be issued by the Ministry of Industry. The time required for obtaining the permit is approximately 7 days. All necessary documents shall be completed and sent to Ocean Air International Co., Ltd. and Rogers Bangkok Co., Ltd. within 14 days before arrival of the exhibits.

For used vehicles, the permit shall be issued by the Ministry of Commerce. The time required for processing is approximately 14 days. All necessary documents shall be completed and sent to Ocean Air International Co., Ltd. within 14 days before arrival of the exhibits. Apart from the temporary import insurance procedure, the Ministry of Commerce also requires a cash deposit or bank guarantee for 400 percent of the CIF price to be submitted before the temporary import permit is issued.

Documents required for temporary import permit application

1. A commercial invoice which includes the following information:
   - Engine size in cc
   - Type of fuel consumed
   - Chassis number
   - Engine serial number
   - Model and year
   - Color
   - Country of dispatch
   - Vehicle brand
   - CIF Bangkok price
   - Net weight and estimated gross weight
   - Quantity imported
2. Catalogues, brochures, or photos of the vehicles.
3. A bank guarantee for the specified amount (for the part used).

Brochures and promotional giveanwayImport of brochures and promotional giveaway items into Thailand is allowed, whereby some items are subject to import duties ranging from 20-80 percent of the CIF price. The dutiable items such as leather wallets and key holders, T-shirts, neckties, scarves and ornamental pins shall be packed separately.

Remark: Import duties shall be calculated on either a declared value or a customs assessed value.

permit shall be obtained before importing the following items:

- Vehicles
- Motorcycles
- Communication equipment
- Foods, drinks, alcoholic beverages, or any other things for human consumption
- Medicines
- Electric lamps or lighting products
- Stone, marble, granite
- Fire extinguisher
- Weapons
- Hazardous chemicals
- Oils, lubricants and other similar materials
- Others

There are 19 ministries in Thailand. Each ministry has prescribed its own controlled items and import restrictions. It is advisable to check with the appointed forwarder before packing these items.

Insurance: Due to a high probability of damage during international transportation, it is recommended that the Exhibitors obtain all risk insurance coverage for both inbound and outbound shipments of exhibits

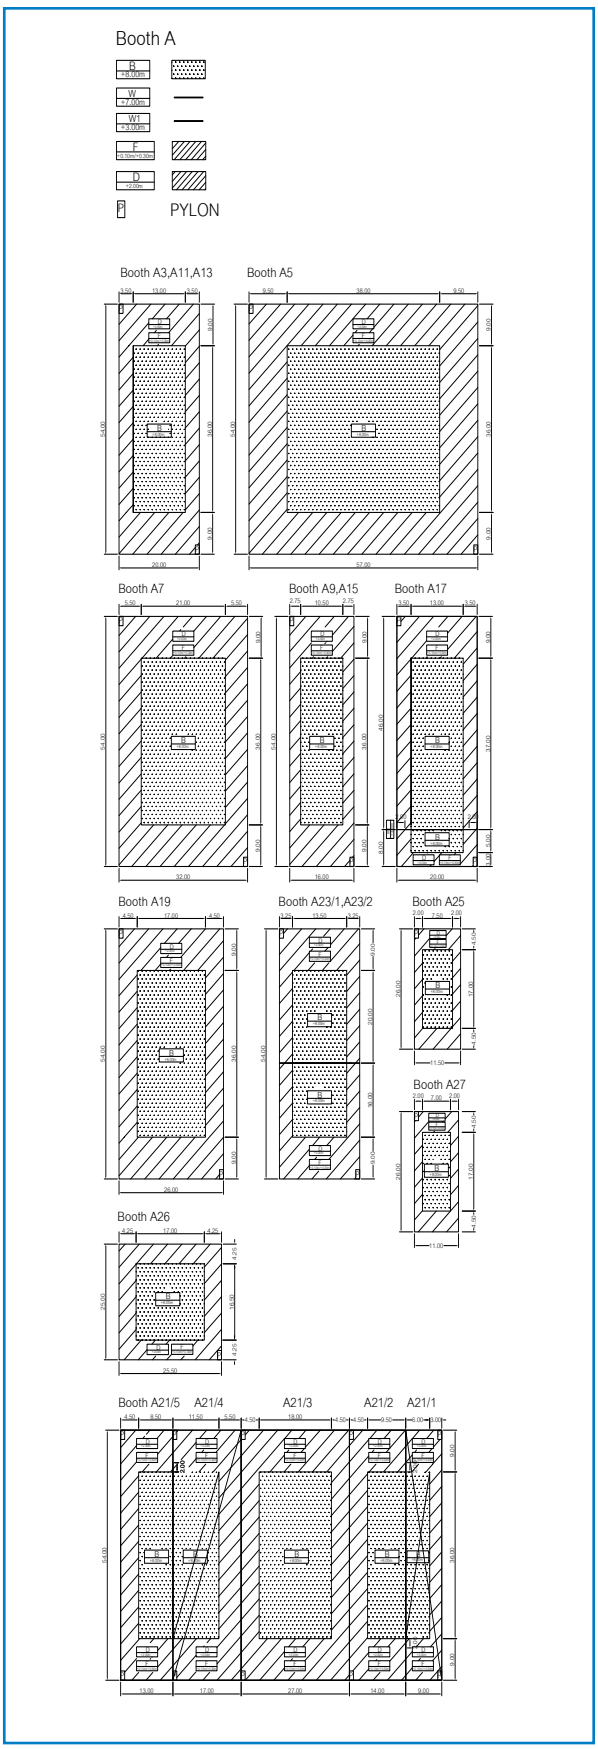
22. Construction requirements for each area

Each exhibition area is the area designated for booth construction and decoration including floor raising covered with carpet or other flooring materials, which must be executed in conformity with the drawing approved by the Organizer. Construction work of each area is different in size, therefore the work must be executed based on the given floor plan.



22.1 REQUIREMENTS FOR EXHIBITION AREA

A3, A5, A9, A7, A11, A13, A15, A17, A19, A21/1, A21/2, A21/3, A21/4, A21/5, A23/1, A23/2, A23/3, A25, A26, A27

B (Building) is the area in which opaque decorative parts and double storey booth not higher than 8.00 meters could be constructed within the boundary of "B" zone in which the size is vary from each booth, based on the outline prescribed in each drawing.

W (Wall) is the location where a wall of the height not exceeding 7.00 meters could be erected, whereby the wall shall possess enough strength and stability to stand on its own without supporting base protruding outside the booth space as this is strictly prohibited. It is also required that the wall surface is decently finished.

W1 (Wall 1) is the location where an adjacent wall of the height not exceeding 3.00 meters could be erected along the designated adjacent booth boundary line, whereby the wall shall possess enough strength and stability to stand on its own without supporting base protruding outside the booth space as this is strictly prohibited. Also, the company logo installation facing toward other booth is strictly prohibited.

D (Display) is the shaded area where a portion of which decorative parts could be constructed, however the opaque decoration is not allowed. These parts are divided as follows:

1. Automotive stand not higher than 0.80 meter; and

2. Other decorative parts not higher than 2.00 meters, subject to attractiveness and un-obscure vision of other booths.

F (Floor) All booth is required to have its floor raised and covered with carpet or other flooring materials.

1. Raising the floor from the original floor level is required and is permitted in the range of 0.10-30.00 centimeters.

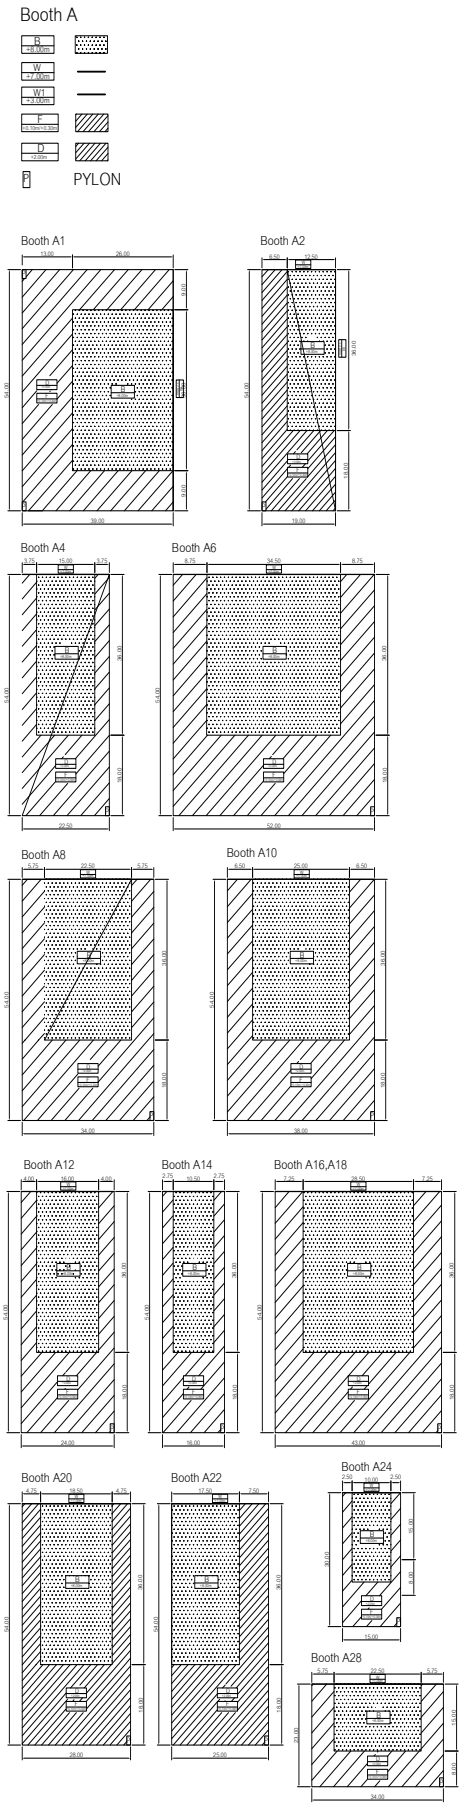
2. After raising the floor, all sharp corners which possibly cause danger to visitors shall be covered with rubber guard.

3. All booth must conform to universal friendly design by providing sloped entry and exit walkways with international symbol of access for disabled and senior citizen visiting with wheelchair.

P (Pylon) is the area assigned for installation of a company name board and / or logo, with the following requirements. The Exhibitor is required to install the company name board and / or logo at the designated point as prescribed by the Organizer in each drawing only:

1. The width x thickness x height size of the board shall not exceed 1.80 x 0.80 x 7.00 meters; and

2. A steel base which measures at least 1.00 meter on each side shall be installed to support the board. It shall be strong and capable of holding the board firmly. A carpet shall be laid on the floor before installing, and the Organizer's personnel shall be asked to inspect the installation before covering the area with flooring material.



22.2 REQUIREMENTS FOR EXHIBITION AREA

List of equipment in standard booth

Please return this form within March 5, 2027

Please complete the form clearly.

Booth No. .....

Booth Name .....

Decoration or construction directly on the wall of standard booths, such as drilling, or painting, is not allowed. If booth decoration is required, the Exhibitor shall arrange for its own wall material.

☐ **Select all items.**

Standard booths shall be equipped with the following items. If a specific item is required, please enter the X symbol in front of the item selected.

☐ **3-side booth wall in white color, the dimension of each wall being 1 meter width and 2.50 meter height (including aluminum border profile).**

☐ **1 company name board**

Please enter your company name into the blank spaces below, 1 character per space. The vowel shall be placed in the same space as the consonant. The Organizer shall arrange for a company name board containing not more than 20 characters. This board does not incorporate the Exhibitor's logo.

Kindly legibly enter 1 character per space. **Send to Mr. Veerawat Saengtian, E-mail: Veerawat@grandprix.co.th - by.bie95@hotmail.com**

G	r	a	n	d		P	r	i	x										

☐ **1 desk**

☐ **2 chairs**

☐ **1 trash can**

☐ **2 40-watt fluorescent lamps**

☐ **1 5-amp 220-volt electric outlet (not for lighting equipment)**

****** Failure to submit the form or notification for adding or cancelling the stated items shall be deemed as no request and shall result in the booth being constructed according to its standard specification. Adding or cancelling items after the form submission deadline may cause delay and incur additional expenses.**

Permission to work before and after working hours
(Orange Badge) throughout the exhibition period
Please return this form by 19.00 hours each day

Construction and decoration of or modification within a booth requires obtaining permission by filling out this form and return it to the Organizer **by 19.00 hours** of a requested date. Without the notification, the Organizer shall strictly forbid such work as it is not possible to arrange for personnel to serve various needs, including lighting within the building, and electric power for use within the booth.

Decoration work after exhibition closing hours incurs expenses based on the length of time spent for such work. The Organizer shall inform the requester after receiving the form. The total number of workers shall be reported and name list attached to this form in order for the Organizer to issue an entry ticket for work area access. Workers without entry ticket shall be strictly prohibited from entering the exhibition hall as this is a safety provision measure for all parties involved. Work shall be performed within the Exhibitor's own booth space. Trespassing into the other booth(s) is strictly forbidden. The Organizer will issue a special ticket (orange badge) for construction work before and after the working hours, which is different from usual ones; therefore, if this request is not filed within the specified deadline, there will be no ticket for workers. The ticket shall be returned after the construction work is completed.

Kindly legibly fill out the following:

Vehicle entry to and exit from exhibition area

Please return this form by 19.00 hours each day.

Taking vehicles out of the building on the exhibition days requires submission of a formal request in writing issued by the authorized director of such company together with this form, and submit to room **C15** by 19:00 hours of the intended date of taking vehicle in or out.

Procedure for taking vehicles out of the building

1. The Organizer shall check the requests submitted within 19.00 hours each day.
2. A carpet shall be laid on the path along which the vehicles or objects are being pulled or pushed across the floor. The exhibition hall carpet shall not be smeared.
3. The Organizer shall allow vehicles to be taken in and out of the building after 22.30 hours.

Pretty & Presenter Code Request

Please submit the form by March 5, 2027

The Organizer has set the date of March 21, 2027 from 12.00 to 17.45 hours for the Exhibitors of all booths to arrange the performance and presentation practice, and test the light, sound and visual systems. The Organizer will accommodate and turn on a full system of air-conditioning and electricity during the specified time.

The Official Service Providers of all categories must complete the main construction works and decorations of light and sound systems to be ready to hand over to the Organizer for inspection before supplying electric power from 12.00 to 17.45 hours. At 18.00 hours, the hall will be closed, and everyone is kindly asked to leave the hall since the Organizer will inspect the operation of all central system in the exhibition for 1 hour from 18.00 to 19.00 hours.

In case the Exhibitors or the Service Providers would like to reenter for work completion, it is permitted by filling the request form for a special badge (orange badge). The purpose of entry and the length of time for work must be specified since the main electric system of all booths will be turned off.
